“Green beans from Manggarai, ready for the world”

SPECIALTY COFFEE

Our speciality coffee is the result of the commitment, effort, and dedication of our producers in harvesting flawless coffee beans, with excellent quality, flavour and aroma.

Each part of their production process has a special control that they perform with the utmost care, which makes each lot produced have specific quality that makes it exclusive.

That is why we say a real speciality coffee can only be made by true special producers

Our Source

Manggarai, Flores, Indonesia

UWU

- **Location & Altitude:** 1500-1700 meters above sea level (MASL), making it ideal for high-quality Arabica coffee
- **Coffee Profile:** Coffee from this area is known for its rich, complex flavor, with strong fruit and floral aromas, and a caramel-like sweetness.
- **Varieties:** Kartika variety.
- **Process:** Natural

MBOHANG

- **Location & Altitude:** grows at an altitude of 1,300–1,700 meters above sea level
- **Coffee Profile:** Dominated by floral, citrus/tamarind, red grapes, chocolate, and elegant sweetness aromas
- **Varieties:** Kartika variety.
- **Process:** Natural & Honey (Red/Black/Yellow)
